	<b>Examiner</b> Carolyn A. Paden	<b>Art Unit</b> 1761	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The rejection of claim 29 under 35 USC 112 has been withdrawn for reasons argued by applicant.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 3, 5, 6, 8, 9-11, 13-16, 18-26 & 28 are rejected under 35 U.S.C. 103(a) as being unpatentable over Trainor in view of Ross for reasons of record.

Applicant argues that Trainor does not disclose the steps of forming a premix of raw ingredients that include oil and emulsifier. This argument has been considered but is not persuasive since the claims do not require this step. Applicant argues that Trainor does not show the use of an emulsifier with a specific stator and rotor arrangement. But Ross, as previously argued, teaches this. Applicant argues that Trainor does not disclose the amount of oil used in the emulsions. But claim 1 does not require any particular amount of oil and the oil in the dressing is clearly set forth in the Table for example 4 and at column 10, line 62 of Trainor.

Applicant argues that Trainor and Ross are not combinable. This is disagreed with for reasons argued in the last office action.

Claim 29 is rejected under 35 U.S.C. 103(a) as being unpatentable over Akaske in view of Ross for reasons of record.

Applicant has amended the claims to suggest that the emulsion contains oil and water. In examples 1 & 2, water is added to the egg yolk composition. The rotor/stator shear device is clearly shown at column 6, line 31. Applicant urges that modified egg yolk is not mentioned in the claims. But the claims are open to the inclusion of any combination of oil and water ingredients that form an emulsion.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the

mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
